

The HealthRev Partners OASIS-E Crosswalk is based on draft guidance released by CMS and can serve as a starting point in familiarizing agencies with some of the changes that are anticipated over the next several months.

OASIS-E is anticipated to be the largest OASIS revision yet, so it is vital that agencies choose a good partner that has both expertise and oversight experience to help agencies feel confident amid all the changes.

At HealthRev Partners we are committed to providing accurate resources to agencies that are trying to ensure a seamless transition to the new data set on January 1, 2023.

Our team is reviewing all draft releases and preparing to provide education and training modules once CMS releases the final Official Guidance, which is expected in July 2022.

OASIS- E Crosswalk

Many Items will remain unchanged on the OASIS, but the landscape is expected to look drastically different, and will no longer consist of just "Moo" codes (M-items) and GG items.

There will be 16 "Sections" ranging from A to Q (No L or P)
***Not all Items will appear on all OASIS assessment types*

A	Admin Info
B	Hearing, Speech & Vision
C	Cognitive Patterns
D	Mood
E	Behavior
F	Preference for Customary Routine Activities
G	Functional Status
GG	Functional Activities
H	Bladder & Bowel
I	Active Diagnosis
J	Health Conditions
K	Swallowing/Nutritional Status
M	Skin Conditions
N	Medications
O	Special Treatment, Procedures, & Programs
Q	Participation in Assessment & Goal Setting

- Several items are being completely removed from the entire OASIS= 
- Several items are remaining on the OASIS but are being **REMOVED** from specific assessment time points.
